Subject: RE: Submittal of Revised Well Installation WP for the TRW Microwave Site

Good morning,

Thank you for checking in. I had several meetings with Herb Levine, EPA's hydrologist, to review and discuss your findings and recommendations. Herb wanted to take some more time to review, and I will check in with him again.

I hope to have a response for you very soon.

Sincerely,

Melanie

Hi Melanie!

Hope you're doing well! I'm following up with you regarding the May 7th email referenced below to see if you had a chance to review the well installation report. Do you have any questions/comments we can answer? In our conclusions and recommendations we suggested abandoning well T-9B and wanted to know if we could proceed with destroying the well? Our next groundwater sampling event is coming up and I'd like to schedule the well abandonment this year, if possible.

Looking forward to hearing from you!

Shantal

Hi Melanie,

On behalf of Northrop Grumman, please find attached the Well Installation Report for the Former TRW Microwave site which documents the installation of new monitoring wells at the site. Can you please confirm receipt of this email (the attached report is 12MB)?

Please let us know if you have any questions or comments.

Thank you!

Rebecca
